

To whom it may concern

REACH SVHC Declaration

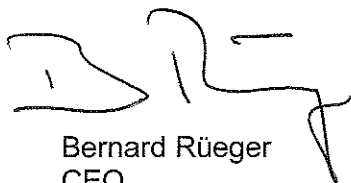

Rüeger SA in Crissier, Switzerland, as an exclusive downstream user (DU) of chemical substances has installed a screening systems on all suppliers of components and raw materials in respect of the application of the No. 1907/2006 EC Regulation (REACH).

This system consists in a centralized check that no Substances of Very High Concern (SVHC) as listed in the European Inventory of Commercial Chemical Substances (EINECS) in concentrations of 0.1% or more are purchased and used for the production of Rüeger goods.

The present update refers to the extended list of SVHC published on January 13, 2010.

We hereby certify that no Substances of Very High Concern as defined in and published by the European Inventory of Commercial Substances (EINECS) are used in concentration of more than 0.1% in any Rüeger Product.

Crissier, the 19th of May, 2010
